## HOBBIES

Reading

## PROFESSIONAL SUMMARY

A software developer with a customer driven nature and a focus on working as part of a team. I am dogged and relentless in achieving results, combining a high attention to detail with the ability to manage competing priorities leading to time optimization and production of high quality output.

## WORK EXPERIENCE

### CrowdForce

Intern

(January 2019 - August 2019)

I took part in the development of CrowdForce's groundbreaking projects (TraderMoni) and was able to Increase product shipping rates. I wrote Python scripts to automate already existing manual processes. I also built and maintained forms for data collection.

## EDUCATION

### Covenant University
